CLIMATE CHANGE ADAPTATION & RESILIENCE

HAZARD MITIGATION
- Planning
- Designs
- Grants
- FEMA CRS
- HAZUS
- Floodplain Restoration

COASTAL RESILIENCE
- Regional Plans
- Municipal Plans
- Neighborhood Plans
- Resilience Designs
- Tidal Wetlands Restoration
- Living Shorelines

CLIMATE ADAPTATION
- Public Water Systems
- Roadways
- Bridges and Culverts
- Historic Resources
- Working Waterfronts
- Critical Facilities
COMPREHENSIVE PLANNING

INTEGRATE ACROSS DOCUMENTS & DEPARTMENTS

- Coastal Zone Management
- Coastal Access
- Hazard Mitigation Plans
- Vulnerability Assessments
- Transportation & Infrastructure
- Resilience-Based Strategies
- FEMA Compliance & Coordination
- Community Rating System (CRS)
- Flood Mitigation Studies and Assessments
- Marine & Port Facilities
- Historic and Cultural Resources
- Critical Facilities
- Economic Impact Analysis
- Grant & Funding Source Application & Coordination
## PAST PROJECTS

### Plans
- Hazard Mitigation (CT, NY, MA)
- Coastal Resilience (Across CT)
- Downtown Adaptation (Damariscotta, Boothbay Harbor)
- Historic & Cultural Resources Resiliency (CT)

### Studies
- Critical Facilities Assessment (CT)
- Flood Mitigation (CT, Old Orchard Beach)
- Fort Preble Preservation (South Portland)

### Designs
- Tidal Wetland & River Restoration
- Sustainable & Living Shoreline
- Shoreline Stabilization
- Infrastructure and Utility Resilience
SUMMARY

- New England Focus
- Cross-Discipline Capabilities
- Adaptation & Resilience
- Integration across Documents and Departments
- Company Culture
