

# LED GROUP PURCHASE

With recent advances in LED technology, it is more affordable than ever to purchase high quality, energy efficient LED lights. This group purchase has been organized by the Island Institute and Matinicus Plantation to lower the amount of diesel fuel burned on Matinicus and provide savings on MPEC customer's electricity bills.

Please have your order in by **Wednesday, September 30th**. I will bring the bulbs on the ferry on October 15th, and they will be available for pickup at the parsonage at the end of the week of October 15<sup>th</sup> (10/15-10/18). If you won't be on the island during this time, don't worry! Simply indicate on the order form that you want to make arrangements for bulbs to be dropped off, and I can leave the bulbs at your building. I can even install the bulbs for you, if you so desire. Please note, **all bulbs purchased through this program must be used to replace existing lighting on Matinicus.**

Thanks,

UNIT PRICE  
**\$1.00**

**Bulb Type:** A-19  
**Wattage:** 9W  
**Brightness in Watts-Equivalent:** 60WE  
**Dimmable:** Yes  
**Temperature:** 2700K (Soft White)  
**Rated Life (Hours):** 25,000  
**Intended Use:** These bulbs cast light in all directions, so they can be used for just about any fixture, as long as it has a screw-in base.

Replacing a 60 Watt incandescent lightbulb, used an average of two hours a day, with this bulb, would save a Matinicus ratepayer **\$26.44** per year. If you replaced ten similar bulbs, that would be **\$264.40** per year.

## ORDER FORM

Indicate the number of bulbs you would like to purchase, and send with a check (no cash please!) to the Matinicus Town Office:
